EXPERIENCE

Chat GPT Writer | *Full Stack Web Developer*   May 2024 – July 2024
Involved in creating new features to our browser extension & our web tool, improving the UI/UX by listening to their feedbacks and prioritizing their needs, overall increasing our users by 20,000+ per month!

Adimis | *SDE-1*   March 2024 – May 2024
Developed SaaS apps using Next.js, Supabase, PostgreSQL, and Stripe payments. I enhanced 3 client projects with Redux Toolkit optimizations and created dashboards with React JS, Tailwind CSS and shadcn/ui. I also collaborated on 2 projects using same tech stack.

100xDevs | *Full Stack Developer*   July 2023 – Oct. 2023
As an active contributor at 100xDevs, I had the opportunity to make a meaningful impact on the platform. Through my GitHub PRs, I was able to improve the UI and UX of the website, leveraging the power of Next.js, Shadcn, and Tailwind CSS.

Coding Shuttle | *Frontend Developer*   Jan. 2023 – April. 2023
Developed dynamic frontend interfaces and used HTML, CSS, JavaScript, React, Redux Toolkit, SCSS, and Ant Design. Seamlessly integrated backend functionality within React applications for enhanced user experience, implemented auth for secure user access, and created core components and pages with live code editors and input validations.

CAD Computer Center | *Tutor*   Jan. 2022 – Dec. 2022
Taught over 50 students, helping them master web development from basics to advanced levels. Provided personal assistance to ensure everyone understood and improved their skills, and used engaging teaching methods to keep students interested and involved in learning.
